**Palhetas Automotivas
de Alta Performance**

Você sabe quando trocar as palhetas do seu carro?

A KM Auto Parts, fabricante de palhetas, orienta que a troca seja feita pelo menos uma vez por ano ou logo que percebido o desgaste nas palhetas.

Alguns sinais de que está na hora de realizar a troca:

- Riscos ou faixas no vidro;
- Vidro embaçado como se tivesse uma "névoa" durante o funcionamento;
- Falhas na limpeza da água;
- Borracha das palhetas quebradiças, ressecadas ou tortas;
- Ruído e trepidação durante o funcionamento;
